

## Stainless Steel Wire

### Description

Stainless Steel wire is used in the thermal insulation industry for fastening of thermal insulation materials such as mineral wool, ceramic wool, calcium silicate, Foamglass and rigid foams.

### Available material

Material quality : AISI304  
: AISI304L  
: AISI316  
: AISI316L  
: AISI316Ti  
: AISI321

Mill certificates (Inspection Certificates According to EN 10204 3.1.B) can be supplied with each delivery of Stainless Steel wire.

### Availability

Diameters : 0,5 - 0,8 - 0,9 - 1,0 - 1,2 - 1,3 - 1,5 - 1,6 and 2,0 mm.

### Packing

In rings or in carton drums.

### Physical properties

For specific chemical composition and mechanical properties, please refer to sample sheets of EN 10204 3.1 certificates.

IMPORTANT: Insu-W-Rapid BV warrants that each of its products will be manufactured in accordance with the specifications in effect on the date of manufacture. We make no other warranties and expressly disclaim any warranties of merchantability or fitness for a particular purpose. If a product fails to meet this limited warranty, purchaser's sole and exclusive remedy is replacement of the product or, at our option, refund of the purchase price. No guarantees for completeness, accuracy or results is expressed nor implied. The suitability of the product to an intended use is the sole responsibility of the user. Since material choice and application method are beyond our control, we accept no liability for direct or consequential damages.
