

## IWR Vessel Inspection Plug [screw-able]

### Description

IWR screw-able vessel inspection plugs are used to enable inspection of vessel- and piping insulation for amongst others corrosion under insulation. IWR screw-able vessel inspection plugs are temperature and weather resistant due to silicone based plug and accompanying weather sealing.

No special tooling is required for installation; only suitable (4.8x16) self-tapping of self-drilling screws.

### Available material

Material quality : silicone plug  
 : eyelet material aluminium alloy 5052  
 : stainless steel AISI304 connection chain  
 Size : 2,5" and 5"

### Packing

10 pcs per carton.

### Installation

No special tooling is required to install the vessel inspection plug.

**IMPORTANT:** Insu-W-Rapid BV warrants that each of its products will be manufactured in accordance with the specifications in effect on the date of manufacture. We make no other warranties and expressly disclaim any warranties of merchantability or fitness for a particular purpose. If a product fails to meet this limited warranty, purchaser's sole and exclusive remedy is replacement of the product or, at our option, refund of the purchase price. No guarantees for completeness, accuracy or results is expressed nor implied. The suitability of the product to an intended use is the sole responsibility of the user. Since material choice and application method are beyond our control, we accept no liability for direct or consequential damages.
